MR: TIMOTHY WILKES.

Whereas the Honoble: Compa: in the 54th: Section of their Ire dated the 12th: December 1677: are pleased to say "That notwithstanding the reasons given them "for altering the day of the Dispatch of their Ships from the ffort, they cannot "assent to it, because of the hazard they may run at the Cape if they stay longer, The Honoble: Compas: order for their ships Dispatch.

[13TH.] ——*FORT ST. GEORGE, JANUARY* 167§.——

"and therefore recomend it to take spetiall care they be dispatched by their time (that is, as we understand it, the 10th: of January as in the Charterpartys. Now notwithstanding the Orders which were given to the Bay & Metchlepa: as the Honoble: Compa: doe direct in the said 54th: Section of their Letter, if possible to prevent the great charge of Demorage that they detaine the Ships there noe longer then is absolutely necessary for the Compas: service yet none of ye: ships are returned hither by this day Noone, soe that 'tis alltogether impossible to comply with the Honoble: Compas: order in the Dispatch of their Ships by the 10th: of January from this place, and in regard we doe at present judge it to be most for the Honoble: Compas: Service for the ships to stay here untill they have taken in all the goods which we have bought and gott ready at this Place to send home upon these Ships. It is therefore after a serious Consultation of us the Agent and Councell (there being none of the Quallity of Senior Marchant at present here) considered to be fitt, & Resolved (by virtue of the Powers given to us in the 105: section of the Honoble: Compas: Letter dated 12th: Decembr: 1677:) that ye: Ships Williamson, Falcon, Nathaniell & Society shall remaine in this Road untill all the goods provided here for the Honoble: Compas: Accott: for England be Laden aboard them, and then Dispatched according to the Honoble: Compas: Orders, if nothing intervene upon the Ships arivall that may occasion new Resolves; This being now considered to prevent loss of time upon the Ships apearing here.

but none of the ships being as yet returned it cannot be comply'd withall.

soe they are to remaine here untill they have taken in all the goods provided for them.

The Reasons why.

The Reasons which induced the Councell to this result were to prevent the great Damages by Dead freight and want of Returnes which would ensue, should the ships proceed directly for England without takeing in ye: goods provided at this place which amot: unto about 550: Tons and 150000:—Pagos: and for attaining the end which "the Honoble: Compa: (in the 101: Section of their Letter aforesaid) "say they aime at, which is the full lading all the 4: Ships & timely Dispatching "them that they may goe together from the Fort in Company (and in the 49th: "Section of their Letter to the Bay) altho amongst them all they should want 200: "Tons of what we are to lade.

Mr: John Bridger the Warehousekeeper having acquainted the Councell that in the sorting the Percollaes fine Contracted for the 19th: December he found they came not up to the Nos. 15: & 16: but were better then No: 14: and unless he tooke in those No: 14, the quantity would fall short, Verona &ca: being alsoe contented to accept of the same abatement of 20: ℔: Oent upon No: 14: as agreed for No: 15: & 16: and it apearing by the accott: Sales of 18th: September 1677: in London that all the said Percollaes No: 14: were sold at 8sh: 3d: to 8sh: 10d: ℔ peece, and but 6: Bales of fine Percollaes went home last yeare, It was thereupon Resolved to take those of No: 14: at Pagos: 13¼ ℔ Corge as last Invoiced abateing 20: ℔ Oent of that price, altho the Honoble: Compa: in their order mention only No: 15: 16:

Percollaes No: 14: accepted at 20: ℔ ℔o: abatement.

It is ordered that this Consultation be copied and sent to the Honoble: Compa: in the Packetts by these ships.

The said Commanders being treated with about y^e: freight of Rice to S^t: Hellena, and they refusing to accept of halfe freight, which the Hono^ble: Company doe order in the 24th: Section of their letter to the Bay, they are not to exceed, it was thereupon resolved to referr the freight to the Hono^ble: Company and the Owners at home, and the Commanders acquainted that we should put 5: Tons of Rice and 1: ton of Paddy aboard each Ship as the Hon^ble: Company have ordered viâ Surratt.

ye : Commanders acquainted with the order about takeing out Petre & Turmerick.

The Commanders were alsoe acquainted with the Honble : Companys order, that if the ships could not take in all the Callicoes, then we were to take out Petre and Turmerick, and rather Petre then Turmerick to make roome for the fine goods, as in the 84th : Section of the Letter which was now read to them, and they were desired to keepe Petre in ye· Hatchway to be taken out if occasion should require.

600 : baggs Petre to be taken out of the Falcon.

The Ship Falcon having about 50 : Tons of Saltpetre more then the other Ships in proportion to her tonnage, and by what can be Calculated at present the ships will hardly take in all the Callicoes provided here, it is thought fitt and ordered that 40 : tons or 600 : baggs of Saltpetre be taken out of the Falcon and put aboard the Tywan Friggatt the like quantity being desired by the Agent and Councell at Bantam to be sent upon the said ffriggatt.

how ye : Williamsons Cargoe is to be proportioned.

There being a great disproportion in the vallue of ye : Cargoes of these Ships in the goods laden at the Bay and Metchlepat : wherein the Williamson falls much short of the other as ℔ Invoices, and time not admitting to travase the goods & alter the Invoices, therefore to bring the Cargoes to a due proportion It is ordered that all the Moorees, ffine Sallampores and Percollaes be laden aboard the Williamson.

It is ordered that the Warehousekeeper doe make all possible Dispatch in the ladeing of the goods as fast as the Boates can carry them off and the ships receive them.

ye : 6 : Barrills Lahore Indico ordered to be returned for England.

now Resolved to be kept for the Bay.

Whereas it was resolved upon the 21st : Novembr : last (as by Consultation) to returne 6 Barrills of Lahore Indico for England upon these Ships, now upon reading the Note of what Dying stuff is wanting in Cassumbazar which they desire from England, wherein Indico is mentioned ; It is thought fitt to keep the said Indico here to send part of it to the Bay for a tryall, and the rest for a further supply as they shall advise.

Order [for] Mr. Mainwaring [aboard the] Falcon.

Mr : Matthew Mainwaring having desired an order to ship his goods and Necessarys aboard the Falcon it was ordered accordingly.

2 : Butts of Bengal arrack for St : Hellena.

There being three Butts of Arrack sent from the Bay (which we did not send for) and the Commanders of the Ships advising that it would be very acceptable at St : Hellena and might doe great service there in case the Island should be attacqued by an Enemy, It is therefore resolved to continue two Butts of Arrack aboard of two of the Ships to be delivered at St : Hellena and to land the other Butt here.

upon Capt : Staffords desire,

400 : baggs petre to be taken out of him & 200 : baggs out of ye : Williamson and Society.

Capt : Stafford being acquainted with the order for 600 : bags Petre to be taken out of his ship and complaining that he must unstow his Ship and that would hinder time in the stowing her againe, and therefore was very earnest that he might not deliver soe great a quantity. after advising with the other Commanders thereabout, it was ordered that 400 : baggs should be taken out of the Falcon, 100 : out of the Williamson, and 100 : out of the Society, all wch : was to be weighed ashoar and then sent aboard the Tywan Frigatt, and the Williamson and Society for this loss in Petre should be allowed a better proportion in Fine Longcloth and Beteelaes.

Mr : Dixon to survey the ships and report his opinion.

And that we may the better know what goods the Ships may be capable of takeing in 'tis ordered that Mr : Dixon doe goe aboard and surveigh the ships, and report his opinion thereof.

TO THE AGENT GOVERNR: & COUNCELL.

We the Commanders of the Ships in the service of the Honoble: English East India Company, and the Officers of this their Garrison, having (by virtue of the order received from the Agent Governr: and Councell Dated the 16th: Day of this month to us directed) surveighed the Fortifications & Buildings belonging to the said Honoble: Company in this ffort and Towne, and having well considered thereof, and fully debated the same, we doe here give up our result according to your desires humbly submitting it to your considerations.

ye: Comanders and Officers Report of the surveigh of the buildings & ffortifications.

1: That it is of absolute necessity that the Curtaine next to the Gentue Towne which is part fallen downe, from ye New Caldera Point by the River side to the Fishers Point by the Sea, be all new built agreeable to that part which is allready done by the new Point.

2: That 'tis of absolute necessity to rebuild the Bastian called the Fishers Point, which is fallen downe into the Sea, and to be built upon Spiles, and Spiles of wood drove downe about that part of it next to the sea, to preserve the Sand from being washed away by the Sea.

3: That 'tis necessary to build a new wall stronger and higher then the old one at such places where tis wanting from the ffishers Point alongst the Sea side to St: Thoma's Point.

4: That 'tis of absolute necessity to build the Curtaine next the Muckwa or ffishers Towne from St: Thomas Point by the Sea side to the Round Point by the River side, agreeable to that part which is allready done by the Round Point.

5: That the two Gates at that side next the Gentue Towne being too narrow and little, and alsoe the gate at the Sea side the like, being all too litle and streight for the passage of people, goods and Cattle, and the Gate houses too little for lodging for the Guards constantly there kept, and the said Gate houses being gone to decay, it is of absolute necessity that in the rebuilding the Curtaines and walls the sd: Gates be made larger for the convenience of Traffique and for the Egress and regress of people, goods and Cattle, and alsoe that at that side towards the Muckwa or Fishers Towne it is necessary that a Gate be made for the better conveniency of Traffique in the passing of people and Cattle in bringing Goods and Provisions to Towne.

6: That tis of absolute necessity to build strong and convenient Prisons to secure Criminalls and offenders.

7: That the Hospitall being a small place and too little roome for the accomodation of sick men, it requireth to be enlarged 3: or 4: roomes.

8: We find that the Honoble: Companys Warehouses are not sufficient to hold all their goods, soe that there is a necessity for more te be built, and it would be a great accomodation to the Shiping and landing of goods if there were a range of Warehouses built at the Sea side from the Plattforme by the Sea Gate to the other high Plattforme, wherein the Companys Marchants and strangers goods might be secured.

9: That the out part of the House in the Fort wch: was added to the former by Sr: Edward Winter stands in dangerous condition, and if it be not pulled downe in time will fall, and may doe great damage and mischief if care be not taken to avoid it by pulling it downe and rebuilding it.

10: There is alsoe want of accomodation for the Guards in the Fort, soe that if the Guard roomes were enlarged, the single Men of the free Guards, which are not then upon the [wat]ch might lye there warme and dry and be the better kept in Decorum.

——*FORT ST. GEORGE, JANUARY* 167⅘.—— [20TH.]

ii : And we are alsoe of opinion that it is of absolute necessity to keepe two Sloops or Vessells of 60 : or 80 : Tons apeece to attend the ffort and Towne in case of Warr, and many other Services may be done by them w^ch^ : may be noe great charge to the Hono^ble^ : Company.

4TH: Letters from Surratt advising about ye: Phyrmaund to be Custome free in all ye: Mogulls Dominions.

By the Ship Good hope received Letters from ye: Presidt: and Councell at Surratt dated the 5th: of last Month advising that our Letters with the Packett to the Honoble: Compa: dated the 28th: ffebrua: arived with them the 30th: March, and they desire if possible that Surratt or at least Broach might be included in the New Phirmaund now endeavouring to be taken out to be Custome free in all the Mogulls Dominions, provided it might be done without any increase of charge more then for Bengale only, for they have found in their Registers that Sr: George Oxinden when President at Surratt made some overtures for dateing the Customes, and that nothing should be paid for the Charge of obtaining it untill the thing was done, yet the Honoble: Compa: aproved not of it and soe the business was let fall; The Presidt: and Councell doe alsoe aprove of having the Phyrmaund made to the English Nation and not to the Company in particular, the evill of which last distinction they often smart for as ℔: advice.

in Armagon alias Duraspatam. Armagon wher the Havaldar (put in by Verona who rents ye: Towne) and the Townes people came out to meet us and conducted us into the Towne with Musick, the Havaldar brought us two sheep, a goate, a Hogg, 2 Turkeys i0: Hens a great deale of Rice, Butter Spice, Toddy, Corne and grass for our Horses, & gave all ye: Peons Rice, In the Evening we walked round the Towne & viewed the English old Factory house, the walls two storys high of one part of it, and a round Bulwart built single by it selfe hard by one end of the house are yet standing, the people of the towne were in great hopes we would settle a ffactory here againe, bringing us two letters in Gentue wch: Sr: Edward Winter sent to them and 'tis by information a place much better scituated for trade then is Madrass: there being many great Townes not far from it in land and the soyle much better then that about Madrass: The true name of Armagon is Duraspatam.

2: yards Broad Cloth
8: Looking Glass
[4: Knives.]

31: Miles Gangapatam 16TH: At one in the Morning we sett forward from Kishnapatam a gentue league and a halfe from wch: we passed thro Gangapatm: where is a great Tope or groove of Mangoe trees, near a Mile further we passed the River almost dry, wch: formerly was a great River and occasioned a [great] trade at Gangapatam, and two Miles farther the River by Oudcore wch: it being near high water & spring tides near the full moone we forded wth: some trouble, the River is called Penna and comes far out of the Country runing by Neloor, which is 12: miles from Oudcore, then we passed
Oudcore through Oudcore, the Havaldar of wch: Towne came out to meet us, sent us a Boat to bring over our lumber, and brought the Agent a present of 2: or 3: peeces Redd Callicoe, and some Beetle inviting us to stay at his Towne, the Beetle was accepted, the Redd cloth returned and our stay excused, we proceeding forward by a great
Weranee Tanke, and soe through a village called Weranee to Gunculpelle a small village, where

17 Juelldindy 27: Ramapatam About midnight we sett forward and by 5: a clock in the Morning went through Juelldindy a gentue league from Gunculpelle, a league farther lyes Tummullpenta, and at 9: a clock we reached Ramapatam wch: is one league from Tummullpenta and two gentue leagues from Juelldindy & reckoned the midway between Madrass and Metchlepatam at this place the English have formerly had a small house, & the Dutch afterward, both wch: have been forsaken, but ye: Dutch have now lately

——*FROM FORT ST. GEORGE TO METCHLEPA., MARCH* 167⅘.—— [17]

about 3: or 4: yeares since builded them another mudwall thatcht house w^ch: stands in the midle of the Towne, and serves to receive Iron and Saltpetre w^ch: they buy in those parts, the former much abounding here out of Iron Stone under the Sands w^ch: covers the ground about the Towne and store of wood nigh to make it into Barrs; This day we travailed 3: gentue [leagues or 27: English] miles, our whole travaile hitherto being [135 Miles or 15 gentue leagues and tis] reckoned to be 30: gentue Leagues all to Metchlepatam. 135: miles

Before midnight we journyed from Ramapatam, & about 3: in the Morning went thro Careda above a gentue League distance, w^ch: is a Seaport and the best Towne on the road hitherto severall Boates were in the River w^ch: we foarded, and 'tis allmost steep to, thence more then one league further we passed by Yelligapounde, and then allmost a league and halfe further to Alloor where are large Topes of Tamerine trees sett in order. here we came by 8: in the morning and Dined, the people are rich in Corne and Cattle w^ch: are very good but they sell none, in y^e afternoone about 4: we sett forward againe and after allmost a league travaile foarded a narrow but deep river it being then low water and then went forward and lodged at Humlae Mooll, where are alsoe very fine Topes of Tamerine Trees, at w^ch: place and alsoe at Alloor we could gett noe grass for our Horses, this day we compute by the Country Acco^tt: we travailed 5: gentue leagues which is 45 Miles. 18: Careda. Yelligapounde Alloor. 45: Humlae Mooll

Betweene 3: and 4: in the Morning we sett out and about 9: with easy travailing came to Yentapollam, in the way we passed over a place w^ch: had formerly been inhabited by the Portuguez called Fringe Bur, and some stones with inscriptions lay in the way. Yentapollam is said to be a Towne of the greatest trade for Callicoes of any in this part of the Country, much fine Cloth being made in the Towne, it was markett day when we came there, every wednesday being the markett day, and we saw Cotton Yarne and fine Callicoes, much fruites and Corne to be sold, people from Metchlep^a: and other places comeing to buy at this place, hearing by people upon the Road that M^r: Hatton had been at Pettepolee 5: or 6: daies, the Agent sent Peons with a letter to him from hence, advising of his intentions to be at Pettepolee to morrow Morning God willing. 19TH. 18: Yentapollam

About Midnight we sett out of Yentapollam, a Gentue league and halfe from which lyes Baupautla w^ch: we went through, & tis a league and a [half] [*a few words lost*] about two miles [*a few words lost*] of the River Kishna that runs into the Sea near Pettepolee which was very muddy and troublesome for our Horses, our Pallankeens and Men were ferryed over by Gun boates, at the other side of this River M^r: Hatton mett us with M^r: Wynne, M^r: Colborne and M^r: Scattergood, about 10: a Clock we arived at the ffactory house at Pettepolee which is a very sorry rotten ruinous timber building much of it being fallen, and that which stands ready to follow y^e: same fate, in the afternoone we walked about the Towne and viewed the old Dutch ffactory, which hath been a large building, but all of Timber and much of it fallen downe, the fflagg Stafe a very high one still standing and the principall lodgings, it stands betweene the English house and the River, by the River Side there is a new Choultry railed in and a Key of Timber made into the River, built and prepared in December last for the King of Gulcondahs reception, but he did not come to this towne the same place is now used for the Custome house, the River is deep and severall vessells of 50: to 80: or 100: tons were in it and haled ashoare on the towne Side by it, the other side of y^e: River is Muddy and there is an Island about two Mile over between the River and the Sea, upon w^ch: Island is a large tope of trees w^ch: is called the English Garden, and 'ts owned to belong to the English, the towne is much decayed many houses being empty ruined and forsaken, the proper name of the Towne w^ch: we call Pettepolee is Nyshampatnam, being soe called by all the Country people. 20: Baupautla. Miles 198. 27: Pettepolee alias Nyshampatnam.

The Saysummutt, Tanadar and the Catwali of the Towne came to visitt the Agent, acquainting him that the Governour was out of Towne, but hearing of the Agents being here he would returne this day and give him a visitt, alsoe they very much importuned that a ffactory might be settled here againe, promising all friendly FRYDAY THE 21TH:

assistance to our business, to which was answeared that the Agent intended to proceed on his journey [this night] [*a few words lost*] [therefore] 'twas not worth the Miles 225: Governrs: while to [*a few words lost*] [trouble to returne] to Towne only to give him a visitt, and as to settling a ffactory the Agent would take it into consideration. These being gone the Marchants that live in this Towne and the adjacent places (some of wch: have formerly dealt wth: the Compa: and were lately at Madrass) came to visitt the Agent and desired Imployment to provide goods for the Company wch: they offered to doe at more reasonable termes then the Marchants of Metchlepatam did, and to deliver ye: goods before they received the Mony, to which they were answeared yt: if they would provide Musters of all sorts of chae and white goods and bring them to Metchlepa: where they might be compared wth: other musters, they should upon the examination thereof receive a satisfactory answear, they apeare unwilling to goe to Metchlepa: but in the conclusion they agreed to come thither wth: their Musters and to be there by this day seven night.

Pullywar 22TH: Kishna River Narragoodra. 30: Collepellee. 15: This night about 10: a clock we sett out of Pettepolee, by breake of day we came to the great River of Kishna that lyes between Pullywar and Narragoodra, where was but one boate to ferry over our people, Pallankeenes and Horses, which tooke up 4: hours time, about noone we came to Collepellee where are two large gardens and a Pagodae which the gentues esteeme a very holy place, this day we reckon we travailed about 30: Miles & tis reckoned to be about 15: further to Metchlepatam.

23: In the Morning we went downe to the River about 2: Miles from Collepelle where was two great Metchlepatam Boates, and two Sangarees or Gun boates which Dio Island sett us over upon the Island of Dio, where the Metchlepa: Tent was pitcht, and there we rested all this day being Sunday.

24: In the Morning we went a hunting of wild Hoggs wth: Kisna Redy the Chief Man of the Island, and about 100: other Men of the Island with Lances and threescore Doggs, with whome we killed 8: Hoggs great and small one being a Bore very large and fatt of a great weight.

1679 25: We received advice from Metchlepa: that William Cullen a Writer in the 270: miles Companys service [dyed yesterday] of a Feaver; and a fflux, We went a hunting againe this day, but mett not wth: soe good success as yesterday.

y^e: Agent went to view the Dutch house and compound at Narsapore:

We went to view the Dutch house and compound at Narsapore w^ch: is a very large peece of ground divided into two large inclosed Quadrangles, in one of which is as many forges as 300: Smiths may worke in them, the compound reaches downe to the River side, upon the sandy banke of which lyes many vessells which are imployed in that great Rice trade of Gingerlee.

THURSDAY THE 17TH:

Having finished what was thought necessary to be done in this visitation of these ffactorys, in the Morning about 8: a clock we sett forward upon our Journey to returne to Madraspatnam intending to goe the upward inland way and to make an Elbow to take a Sight of the Dimond Mines, we went this forenoone to

Miles 9: Verasheroone

Verasheroone w^ch: is about 9: or 10: Miles from Madapollam, those two places and Pollicull makeing a Triangle, we viewed the Comp^as: two Houses at Verasheroon w^ch: stand one over against the other in one streete, both of them part fallen to the ground, and that w^ch: stands of them it was not safe to adventure in to see them, the compounds of the houses are small but well scituated, being raised high from the streets, above a Mile from the Towne, there is a very large Mangoe garden of the Comp^as: by w^ch: the Tent was pitched for us, but the Country Governours claiming the right to the fruit of the trees by reason we have neglected it, the Agent gave order to M^r: Hatton to send 4: or 5: Peons from Madapollam every yeare about Mangoe Season which is at this time of the yeare to watch the trees and gather the fruit to send to Madapollam thereby to preserve y^e: Comp^as: right and title to the Garden, there is allsoe two other small Gardens nearer the Towne belonging to the Comp^a: but all lye wast and only the great trees standing to shade the cattle & travellers from the Sun, and these with many others that are [about] this Towne would very well accomodate Weavers to worke under if the place were rented of the King by the Comp^a: and kept under their government w^ch: was now adjudged to be for the Comp^as: Interest, keeping only a Warehouse at Verasheroone, and the ffactory to continue at Madapollam, but the Towne of Verasheroone is now ruined and empty of People through the tyrany of the government.

18TH: 22½ Pentepoll

In the Morning by breake of day we parted with M^r: Hatton &c^a: the ffactory that came to accompany us thus far on our way, and about noone we reached Pentepoll reckoned 2½ Gentue leagues.

19: 27: Elloor.

We sett forward early in the night, and by 9:, or 10: in the Morning came to Elloor 3: gentue leagues. this Elloor is reckoned one of the greatest Townes in this Country, y^e: King in his last progress comeing to see it, where are made y^e best Carpetts after the manner of those in Persia, by a race of Persians w^ch: they told us came over above, 100: yeares agoe, the manner of makeing them we saw, and is in brief thus, the Loome is stretched right up and downe made of Cotton threads and the Carpett wrought upon them with the woollen yarne of severall collours by young boyes of 8: to 12: yeares old, a man with the Patterne of the worke drawne upon paper standing at the back side of the Carpett, and directing the Boyes that worke it, how much of each collour of yarne should be wrought in, and every thread being wrought they share it with a pair of Sizers and then proceed to the next. at this place a Horse of the Comp^as: which we tooke with us from Madapollam falling lame we left him here with one of our English Men and a Peon to returne to Madapollam.

At Elloor we lodged in a house of Aga Jelolls whose Brother in law prepared us victualls, and gave us Hens and Sheep, to whome for his kindness and in respect to Aga Jelol who marryed his sister we presented 3: yards of Scarlett at parting.

20TH: Easterday y^e: 18½ Gullapellee. y^e: Dymond Mines.

About two a Clock in the morning we sett out of Elloor and about 7: arived at Gullapellee upon the Dimond Mines & lodged in the house where M^r: Cholmley made his Investm^t: of Dymonds the last yeare, in the afternoone about 4: a clock we went to the Mines about a Mile & halfe out of Towne upon a Hill to see them digg and looke for the Dymonds, which is done after this manner, the ground is loose of a Redd fat sand and gravell, great and small Black Red and white stones, one or two of the Miners loosen the Earth with an Iron grow and others with Iron Pawraes or Spades heave it up to a heap from whence others with Basketts wind the small dust from it with the wind thence 'tis carryed to a troff made up of Stones and

Earth and filled with water w^ch^ : is brought thither above a Mile upon Mens heads, where all the gross earth is washed away from the gravell, for the Earth melts like Sugar and runs out of a hole with the water, soe the gravell all remaines, that they carry thence and spread upon a smooth plaine place prepared for the purpose, where the same Men (that digg, dust and wash the Earth) sett all the heat of the day in a ranke one by another with their faces toward the Sun, looking for the Dymonds, and the Man that Imployes them setts over against them, to see that what they find they deliver to him, and in this manner they find the Dymonds in the same fashion and Shape as they are sold rough, and by what we observed the cost and labour of finding them countervailes the vallue and worth of the Dyamonds; Those that Imploy the Miners doe not buy the ground as some have reported, But they and any one that has a desire to imploy his Mony that way, first acquaints the Governour of the Mines with it, then he grants him license to spring a Mine where the Imployer thinks best paying 3 : pag^os^ : ℔ : Mensem if he Imployes noe more then 10 : 20 : 30 : or 40 : Men in it, if more then 4 : and of some 5 : pag^os^ : ℔ : Mensem, the miners or those labourers that worke in the Mines are paid 1¼ pag^o^ : ℔ : Mensem in mony and Corne, and this is all the charge the adventurer in the Mines is at, except it be that they over bid one another some times for a good peece of ground w^ch^ : one hath light upon & another hearing of it bids the Governour mony for it, and he that gives most has it; But besides the rent of 3 : to 5 : pag^os^ : ℔ : Mensem to the Governour for the King there is a custome or Excise sett upon all Corne at about 50 : ℔ : ⊖ent. above the markett, upon Salt, Beetle and Tobacco at above double and treble the Markett rate, and all the Miners and those that deale there (except a priviledged EnglishMan or such like) are compelled to live upon the Mines in those Townes where that Excise is raised. The Towne of Gullapelle tho within a Mile and halfe of the Mines is without those limits, & therefore none of the Miners or Dealers in Dymonds are allowed to live there, but at Mellwillee about 4 : or 5 : Miles from Gullapelle, where the Govern^r^ : of the Mines lives, the whole rent of these mines is reckoned to the King worth 60000 : pag^os^ : ℔ : ann. and as much more to the Govern^r^ : to bribe the Courtiers to hold the place, There was none of the Mines that we saw this day w^ch^ : were dugg above 3 : foot deepe from the surface of the Earth, and most of them about two foot, the ground first overgrown with shrubs and Bushes w^ch^ : the Miners digg up with the Earth, these Mines lye upon a flat hill upon the top and on the side of it, where are found small and great Dymonds of good and bad waters, but very little Bort, and they say that y^e^ adventurers in these Mines seldome loose in their undertakings.

This morning came severall of the most eminent Marchants from the Mines to visit us at Gullapelle, and to try how we were inclined to buy, at first they asked moderate rates, w^ch^ : when we bought they raised and afterward would not shew more but what they asked Dear for, soe we could not lay out 1000 : pag^os^ : amongst us all for feare of injuring y^e^ : Markett; at 3 : in the afternoone we sett out of Gullapelle, passed over the mines to Mellwillee and Raizpent w^ch^ : is about 6 : Miles, allmost all that ground being spread w^th^ : Miners, and the Mines in the valleys were much deeper then those upon the hills, being some of them 10 : and 12 : foot deep, and some mines were sprung upon ground where Corne had been sowen and reaped a few months since, The Govern^r^ : of the Mines at Mellwille sent to complement the Agent & excuse his not comeing out to meet him as he said he intended to doe, to w^ch^ : a civill answear was returned; The two Townes of Mellwillee and Raizpent upon the Mines are very large & populous, but the buildings all thatcht Hovells, the people are well favoured, well clothed, and looke as tho they fed well to undergoe their great and hott labour tho Corne &c^a^ : be at excessive rates, and the place must needs be full of mony to pay 30 : or 40000 : labourers in the Mines besides many others, the Dymonds being allsoe allwayes bought w^th^ : ready Mony, the Country pleasant like England about London, by Raizpent is a large pleasant greene valley full of flocks of Woolly Sheep, thence to Mustabad where we lodged this night, we travailed through a mountainous Country by very pleasant vallys w^th^ : Tankes of water, and came to our Journeys end about 8 : at night, having travailed two Gentue leagues.

22TH ——*FROM MADAPOLLAM TO MADRASPATNAM, APRILL* 1679.——

Beswar. At 3: this morning we sett out of Mustabad, from wch: place to Beswar is one Gentue league, Beswar lyes in the road from Metchlepatam to Gulcondah, at wch: place the King ordered the English and Dutch to take leave of him in his progress in January last, it stands by the side of a Mountaine as does Mustabad, Mungullgurree and most of the Townes in this Mountainous Country, by it runs the River Kisna wch: we passed between Pullywar and Narragoodra, upon the two Mountaines at Beswar there are severall pagodaes much esteemed by the Gentues, who report that there are alsoe great treasures upon these Hills, by ye: towne are large groves Miles 81. of trees, having foarded the River Kisna (wch: is very good water) by the help of the rising Sun we saw the walls of the great Castle of Coundapellee upon great Hills about 7: miles from Beswar, this Castle is said to be stronger and biger then that of Gulcondah, and 'tis said the old king had a designe to remove his seat thither after he was surprized by Oranzeeb, and tis believed that the great reason of this Kings makeing such frequent progresses into these parts is to remove his treasure first and afterward his Court to this Castle of Coundapellee, wch: is reported to be 9: Miles compass upon a very high Hill by the River Kishna, for Madana the Bramini his 13½ Mungullgurree. prime Minister of State stayed at Beswar (when the King tooke his pleasure about the Country) upon pretence of doeing devotions to the pagodas and feeding many hundreds of Braminys, wch: some say was to lay up the treasure in Cundapelle Castle, wch: those Braminys brought from Gulcondah 6: or 7: daies journey from Beswar, and Beswar is 45: Miles from Metchlepatam, from Beswar we travailed 13½ Mungullgurree. halfe a league through a mountainous Country to Mungullgurree where we tooke up our quarters in a great Pagodae by wch: is a very deep Well made of Stone, and Stone steps to goe downe to the bottome of it, built by Gruaraz Bramini to the Dutch ffactory at Metchlepatam late Deceased at this place we went to a pagodae which (with many others) stands a good height upon the side of the Mountaine by the towne, which we assended by stone Staires, where there is a Brasen face of the Image of the God Narsing whose head and uper parts resemble a Lyon, and the hinder parts a Man this Brasen fac't God 'tis reported all the Country over drinks up just the halfe of any Pot of Sherbet bigg or little that is given him and stops there refusing to drinke more of the same pot, but the halfe of another, and soe of as many as are brought to him, there being severall pots of Sherbett made of Jagra prepared we observed the miracle very dilligently how an old Bramini with a 94½ Miles. Chanke Shell filled out of one of the largest pots, and poured it into the Mouth of the Image, untill he guessed the pott was halfe out, and then instead of putting the shell full into the mouth of ye Image and soe pouring it in he drew his hand back and poured the Sherbet without the Mouth saying the Image was satisfied and refused to drinke more, the better to satisfie ourselves of the Cheat, we made the Bramini give him two small Potts more, both which he did in the same manner, the Brasen head of the Image stands in a darke stinking place cut into the Rock, at one corner of which we spyed a hollow place that had a glimmering light in it wch: they would not let us looke into, where we suppose ye: sherbet is taken up by the Braminies wch: they say the Image drinks by this simple invention all the Gentues in the Country are deluded, and 'tis said two thousand Braminys are maintained by it. One of our Horses being desperately sick we left him behind us at this place with men to looke to him.

23TH: At midnight we departed from Mungullgurree & before 9: in the Morning came 27: Punnoor to Punnoor 3: leagues, this day we left the Mountainous Country and travailed through a plaine Country by many fine groves of trees.

24: About midnight we left Punnoor and before 9: in the morning arived at 27: Yentapollam Yentapollam that is 3: leagues, in the midway of wch: Journey we fell into Metchlepatam Road to Yentapollam, and a while after came to a place where Hodgee Allee a Persian lyes buryed that divides the Road to Metchlepatam and Baupatla, at said tombe there is Milke, Buttermilke, Purgo aud water allways ready for all travellers gratis given by the deed of the defunct about [*Lacuna in the original*] yeares agoe, and duly observed to this day, since we came from Verasheroone we could get only Cuscus straw for our Horses untill this day, and here they had grass.

About 2 : in the morning we sett out of Yentapollam & by 10 : arived at Alloor 3 : gow.

26TH. Miles 175½

27 : Careda.

About midnight we sett out of Alloor and passing 2 : Rivers one of Saltwater another of fresh water, about 7 : in the Morning we came to Careda, and though it was near a high water, yet we foarded that River up to the shoulders, this was 3 : short Gentue leagues travell, At this place severall of the relations of our Madrass Marchants came to visit the Agent, & brought a present of Rice, Hens, Butter, Milke &c[a] : of whome enquiry being made of the trade and revenue of the place, they informed us that there was made Ordinary and fine Salampores, Dymities, Dyapers, Ginghams and such like goods about 5 : or 6 : leagues up in the Country, this being only the Port to Ship off and land goods and little or noe trade at all here, from hence to Gulcondah the Road was good being about 8 : days Journey for a footman, and about a Month for Oxen laden, which is much about the same distance as from Metchlepatam to Gulcondah, that there was often Copper, Tynn, Tuttynague and Lead sent by them from hence to Gulcondah, the charge of w[ch] : was ¾ pag[o] : for the Ox hire, and 1¼ pag[o] : for the Jungan which is 2 : pag[os] : for an Ox loading of 8 : Maunds, that is 5 pag[os] : ℔ Candy and the English and Dutch pay 4 : pag[os] : ℔ : Candy from Metchlepatam to Gulcondah tho priviledged by the Kings Phyrm[d] : and the Gentues and others pay 6 : pag[os] : ℔ Candy there. The River that runs into the Sea at this Towne they say comes from a fresh spring out of the mountaines 10 : Leagues off, and the water is fresh but 2 : Miles up the River from the Towne, the Barr never shutts up all the yeare, and at a low water there was about 4 : foote upon the Barr. The Towne is small and of meane thatcht houses and narrow streets, it stands about [a mile from the Sea side, the] ground belonging to it is most Sandy about 5 : or 6 : miles in compass, under the Sirkell imediately as is Madrass and S[t] : Thoma, and noe other Townes under it, the Revenue of the Corne comes to 1000 : to 2000 : Pag[os] : ℔ : Annum according [to the crops] and price, there being a great [*a word or two lost*] Tanke of water never dry which produces Rice all ye yeare round, and the Customes from 100 : to 300 : Pag[as] : ℔ : Annum at 1¼ ℔ : Oent upon importations and 1¾ ℔ Oent : upon exportations, only Sea Custome taken and noe land Custome, at present there is a Braminy Govern[r] of the Towne put in by the Sirkell Nabob Mahmud Ibraim, if this place were in our hands as is Madrass, 'tis presumed that in few yeares the greatest part of the trade at Metchlep[a] : would be drawn hither, & be of great advantage ; In the Evening we tooke horse and viewed the ground about the Towne w[ch] : we found according to the report of the Marchants, and stockt with Cowes & Buffelas (like a Marsh in England) feeding upon good pasture where the Corne had been reaped, The Towne stands upon y[e] : highest Spott of ground by the River side and overlookes all the Corne fields and meadows, we lodged in a mangoe garden by the tanke side a pleasant greene place.

27TH. 27 Juelldinde.

Departing from Careda about 10 : at Night we came to Júelldinde by 6 : this morning, foarding a broad Saltwater River a little short of Juelldinde. In the afternoone about 4 : a Clock we sett out of Juelldinde that we might pass the River of Oudcore at a low water which we did about 9 : at night and by 11 : came to Gangapatam leaving all our bagage upon the way having travailed 5½ large Gentue leagues this day.

22½ Gangapatam.

28TH. 13½ Kishnapatam.

At breake of day we departed from Gangapatam and by 10 : in the Morning came to Kishnapatam, there we lay this Night and all our baggage came in with us, here we understood that the Dutch some 5 : or 6 : yeares since sounded the Barr and the River of Coleer and desired a settlement upon an Island about two miles up the River, a good fertile peece of ground, and the River deep fitt for vessells of some burthen, but the King of Gulcondah would not admitt them such a settlement.

In the ffornoone the Agent walked round y^{e}: ffort upon the Curtaine and viewed all the accomodations thereof; At noone we were treated with a very splendid Dinner, the Table being spread with about 100: Dishes of meate well dressed and well sett out, and as many of all sorts of dryed Sweet meates made after the Europe manner, Wine of all sorts in great plenty, five healths were dranke about at Table, and all the Canon in the ffort and some at y^{e} Redoubt in all 51: fired every time, two healths were dranke after Dinner with Canon fired, at about five afternoone y^{e} Agent tooke his leave, the Governour excused himselfe from accompanying the Agent out of Towne or downe Staires by reason of weakness, but his Lady with severall other gentlewomen, sign^{r}: Hartsing and others of the Councell and severall others accompanyed us to Chena Pollicat where Heer Caulier [hath built a Garden] house, there we were treated at a very handsome supper and other divertisements [of merryment until] midnight, then we tooke leave, the Dutch Lady and gentlemen returning to Pollicat, and we proceeded [*a few words lost*], One thing remarkeable we [*a few words lost*] in Pollicat, which was that by advices from Tannassaree, Pegu, Arracan and Bengale the Earthquake which happened the 28th: January last, happened allsce in all them places and upon all the Coast of Chormandell at one and the same minute of time.

MR: RICHARD MOHUN MR: RICHARD EDWARDS.

SEPTEMBER MUNDAY THE 1ST:

Although Mr: Edwards is not of the Ordinary Councell to the Agent, yet being of the Degree of Senior Marchant wch: are of the Extraordinary Councell, It is thought fit to call him into the Councell at this time to take his advice in the Affairs of this ffactory whereof he hath had ye: charge as Chief for near two yeares.

why Mr: Edwards called into Councell.

The Honoble: Compas: Marchants at this place being sent for before the Agent and Councell, and treated with concerning the Musters and the prizes of this years Investment for goods to be provided here, and they standing very obstinately upon their former Custome for only a head Muster, and that they would not abate or alter anything of the Contract made with the Chief and Councell of this ffactory as to the prizes, tho they desired an abatemt: of the rate upon the Gold, urging that they should be great loosers by it, and that Cotton was dearer now then the last yeare, and the Customes doubled by new exactions in severall places of the Country.

ye: Marchts: stand upon ye: prizes &ca: for the Investmt:

The Agent and Councell takeing the same into consideration, did not thinke it worth while to dispute it with them about 2d: and 3d: Musters knowing the obstinacy of these people, and that the goods could not be sorted without such Musters (tho the Marchants pretended they would bring in only of the head sort) and therefore ordered Mr: Edwards that when he began to sort the goods he should chuse out fitt peeces for 2d: and 3d: Musters, and Seale and marke them to remaine in the ffactory to sort by hereafter; and it apearing upon examination that the prizes agreed for the last yeare and the same this yeare are much under 10: ℔: ϴent which is all the abatement the Honoble: Compa: require, and that only upon the prizes of the Sannoes sent home by the Eagle and Johanna 1676: and finding upon inquiry that there are noe other Marchants hereabouts soe able and capable to procure the said goods, or that can undertake them cheaper it was thought fit to confirme the said Contract for the Investmt: made by the Chief &ca: the 17th: of July last, which is for the following goods and at the following prizes.

This proposall being debated it was thought fit to close w^th^: them therein considering the great danger of bad debts from the Arrears of severall Persons of small or noe Estates, Imployed in the Investments, The said Chimchamsaw and Chittamundsaw allowing the Arrears of their owne and the other Marchants Acco^tts^: in the Monys now to be advanced upon this yeares Investment, and agreeing to have no Mony paid them hereafter untill after the Ships arivall, and yearely to repay the overplus they shall receive within a Month after the Ships departure, or to allow 1½ ℘: Cent ℘: Mensem Interest for the same, if the Chief and Councell shall thinke fit upon such non payment to continue them longer in the Imployment, to all w^ch^: they agreed excepting for and against the Arrears of Monys due from Chicosotea, Bogwoitedas & Cowull w^ch^: were esteemed Desperate and therefore they would not engage for them, w^ch^: was allowed by the Agent and Councell, and agreed that a Contract of this Import should be Sealed and interchanged w^th^: them.

ye: agreement wth: ye: Marchants delivered.

Allsoe we deliver you all our Consultations held in this place at this visitation for your better Direction in the observation of those things ordered therein; wch: Consultations together with these our Instructions, and all ye: other Papers now delivered you we order to be entered in your Diary and Consultation Booke Imediately after our departure from hence; But you need not send the Copys to Hugly, yet they must be entered in the Copys you are to send home and to the fort.

Consultations Delivered.

——*BALLASORE, SEPTEMBER* 1679.—— [5TH.]

In reguard the Investment is now settled under the security of two Persons, we thinke it will be best to keepe the Accotts: in the Honoble: Compas: Bookes under the title of Chimchamsaw, Chittamundsaw and Company only, but yearely to sett downe in your Consultation and Warehouse Bookes the Distinct and Respective shares, and ye: sums: of Mony paid to, and the goods receā: from every individuall Person, that soe in case of any bad Debt made you may be the better able to asertaine the damage, but if upon a yeares or longer experience you doe find inconvenience in this way, then you may alter it, and keepe the Accotts: under severall titles as shall be found plainest and best for the Compas: Interest, allways observing to adjust and even Accotts: with the Marchants, and to pass mutuall discharges with them after the Ships Departure for England in December or January yearely, and for your neglect thereof we will not admit of any excuse, but doe hereby forewarne you, assureing you of the execution of the Honoble: Companys severest orders, that is Dismission from their Service, and to be sent for England upon your first default in this particular, therefore looke you to it.

how to enter the Marchants Accotts: in the Bookes.

to adjust their accotts: every yeare under penalty.

You are to keepe a Receipt Booke, and therein to take Receipts for all Monys paid, and the amott: of all goods Delivered, and you are to pass Receipts to the Marchants in the like manner to avoyd future differences in Accotts: which there now happens in the former Accotts: for want of such punctuallity.

A Receipt Booke.

You must take care to keepe the Marchants up to ye: goodness of the goods, and therefore to make but three sorts and noe fourth Sortment of any of the goods wthout Consultation, and then that there apeare a necessity to compleat the quantitys wch: the Compa: Require; and you are not at any time to Receive, Pack or Lade any other sorts of goods then such as you shall from time to time receive orders for; Except a bale of new sorts of goods for tryall of Marketts, if you find out any such you may yearly lade a bale of each sort as the Honoble: Compa: doe now Direct.

of Sortments.

The Honoble. Compa: are pleased in their last Letter Dated the 3d: January 167$\frac{8}{9}$: to give the following Directions about Nillaes wch: you are to observe.

of Nillaes.

"We find the Nillaes that are most vendible are ye: sort that are finest and "most glossy, and stript with the lightest Colours, as hair Colour, sky Colour "and the like, but those that are Red and Tauny ground striped with Black are not "vendible here.

Thus haveing done wth: what Relates to the Setling of the business of your Investments, we come now to that of your Accotts: of this ffactory, wherein upon examination we have found great Confusions and such gross Errours to the prejudice of the Honoble: Compa: as we presume cannot be paralel'd in any place, but you Excuse your selves of these unpardonable Crimes and enormitys by reason you had noe Bookes of the Accotts: of the ffactory untill the 14th: Aprill last when Mr: Byam came from Hugly and brought with him the Bookes kept by Mr. Bugden begun the first of May 1677: & ending the 30th: Aprill 1678: wch: Mr: Byam as he was ordered brought to a Ballance after his arivall here, but was not to alter any Article therein, and 'tis in those Bookes we have found the gross Errours we Complaine of, and wch: we shall now give you Directions how to rectifie, that soe they being once put into a Method and order to be understood you may keepe up wth: them accordingly.

about the Accotts:

The first grand Errour is in the Accott: of Cash wch: by the Ballance of the foresaid Bookes stands Dr: Rups: 8645: 12: 9: and we find by your Cash Booke, that the Ballance of your Cash the 30th: Aprill 1678: was but Rups: 916: 07: 0 soe there is a want of Cash Rups: 7729: 05: 9: wch: we find by your Copy Booke of Letters you advised of to the Chief & Councell at Hugly, and they in answear give noe Directions how to Reconcile it, but advise you to close the Bookes & signe them with an exception to the Accott: of Cash; Therefore we order you to give your Cash Accott: in the Bookes Credit for the said Errour of Rups: 7729: 05: 9: By Cash for Errours in Edmund Bugdens Bookes, expressing ye: reason thereof in the Journall parcell, and and let this Accott: stand upon Ballance under the Title of Debts upon Errours in Accotts: then your true Accott: Cash will stand as it ought to doe.

Touching Expences of the ffactory. We find the Expences of the factory are greater then we expected, and you ought to be as frugall for the Hon^ble : Comp^a : as possible you can, we thinke a Pallenkeene & 2 : Horses is sufficient accomodation for goeing abroad and doe order that the Company pay for keeping noe more, and noe hire for Pallankeens, except when you make visits to the Governours and great Men, Your charge of Servants is more then necessary, w^ch : therefore we have directed to be reduced, Your Expence of Candles and Oyle is too much by the halfe therefore you must reduce that, and after our departure hence to Hugly we order that you keep noe publike table, there being but four of the Comp^as : Servants in the ffactory, you will have too many of others to increase the Charge whilst the Ships are here, therefore you must containe your Selves w^th in the usuall allowance of your Dyett Mony, at all such times now and hereafter, except you shall have license to doe otherwise.

To advise to Hugly. 6TH. Ye: Arivalls leaks stopt, ordered to proceed to Hugly.

Upon advice this day that the Sloope Arivalls Maine leake was found and stopt, and that she had taken in good part of her lading before the order came to bring her into the River, being capeable to performe the Voyage, the Councell being advised with therein she was ordered to proceed as directed from Hugly.

MUNDAY THE 8TH. Mellick Cossum expects a Present. visited by ye Agent.

Mellick Cossum having given private notice that he expected a Present from the Agent, and a visit before his departure for Hugly, after consideration thereupon had, it was thought fit to deny him the Present, yet with some glimps of hopes to obtaine it after the Agent's returne from Hugly, and to promise him a visit, wch: to hinder loss of time was given him this afternoone.

9TH. ye: Agent &ca: Imbarqued upon the Lilly.

Early in the Morning the Agent &ca: Imbarqued upon the Sloope Lilly, and with the help of Capt: North & Captaine Earning and the 3: Ships Pinnaces wch: towed the Sloope, we gott downe to the Banksale at the Rivers Mouth by 2: or 3: a Clock afternoone, the water being too low to goe over the Barr we stopt there.

a ship came into the River by night.

About 8: a Clock at night by the help of a light Moone & Boates laid to Bouy the Bar and the sands, with lights in them, we saw a Ship of the Shabundars of about 300: tons come into the River that yesterday came into the Road from the Maldivaes laden with Cowries and Caire; allsoe in our passage downe the River we see two Ships newly come in from Jafnapatam upon Zeiloan wth: Ellephants wch: they were takeing out, two great ships of the King of Syams that bring many Ellephants from Tanassaree we see lying in their Docks, the [*a few words lost*] of Ellephants being much driven at this place.

a letter to ye: Agent from Mellick Cossum to spare the Prince some Iron Ordnance, the answear thereto

About 10 a Clock [at Night came] Chittamundsaw one of the Compas: Chief Marchants downe to the Banksale in his Pallankeene wth: a letter from Melleck Cossum to ye: Agent in the Persian language, the Contents of which he said (for we had noe body present that could read it) was to desire us to spare the Prince a quantity of Iron Ordnance of the Compas:; formerly scored out for that purpose, and to carry them up to Hugly in our Sloopes, to which answear was returned by Chittamundsaw by word of Mouth, That we did not use to deale with the Princes or any of the Nabobs or Governrs: but with the Marchants of ye: Country, and if they would undertake the business between us then we were content to part wth: the Guns at the termes formerly proposed, but for carrying them to Hugly in our Sloopes, it was not possible to be accomodated either now or hereafter during the ships being here by reason of the great business of the Compas:; This affair being soe concluded, Chittamundsaw then made some offers about saltpetre double and Treble refined, but most of ye: latter to the quantity of about 2000: mds: wch: he was very importunate might be taken off of their hands, and allsoe a quantity of Romalls, Humhums and Mullmulls, for wch: Chimchamsaw and he had before pressed very hard at Ballasore, and ye: same answear wch: was then given them was now made to Chittamundsaw vizt: that when the Agent was gone Mr: Edwards should write up to Hugly the lowest prizes they would take, and thence they should receive an answear what to trust unto as to the accepting or refusing of those goods.

Offers made about Saltpetre Romalls Humhums and Mullmulls.

Then Chittamundsaw desired to have an authentique Copy of the Agreement made between the Agent and Councell and the Ballasore Marchants the 3rd: Instant, to keepe by [him because the Ori]ginall lay in Chimchams hands, wch: was granted him he paying the Secretarys fees.

Upon consideration that there was little or noe marke for the Barr at Ballasore Rivers Mouth now, the Tomb that was built by the Dutch was fallen downe the last foule weather, and the Monys given some yeares since by Mr: March and Mr: Marshall to build Tombs over their bodys there buryed, that they might be markes for the Barr, were not like to be soe expended, and formerly there were flag stafs and flags at the Point of Sand & at the ffactory for such marks, the Dutch having one now at their ffactory, it was resolved and ordered that Mr: Richard Edwards should put up Flag stafs and Flags accordingly at the ffactory and at the Point of Sand at the Rivers mouth for markes for the Ships to come to anchor, and for the Sloopes and Boates to goe over the Barr.

10TH: ye: Agent &ca: went aboard ye: Arivall.

In the afternoone by the helpe of the Commanders of the ships and their Pinnaces the Agent &ca: gott off and went aboard the Sloope Arivall, disposing the young Men and Lumber aboard the Ganges and the Lilly. The Sloopes wanting water as usuall and for soe many Passengers, the Agent borrowed 4: Butts of Capt: North, and he being unwilling to spare more and the others none, the Ganges could not saile without some, the Master sending word he had but 3: or 4· Gallons aboard.

Received a Letter from Decca dated the 13th: Instant adviseing that the Prince Sultan Auzum had left the Citty the 6th: and the 12th: began his Journey toward Rajamaul, that 'twas feard there would have been a generall plunder about the time of the Princes departure, but it proved not soe; That Shasta Ckaun was made Suba or Governour of Bengale, his Son Buzurgh Omeed Ckaun being sent his offtalle or Deputy to take possession of the Government, and is on his way makeing great Speed to Decca part of the Armado being sent to Pattana for his Reception.

The letter of the 6^th : from Ballasore is signed by John Byam and Matthew Sheppard, advising that M^r : Richard Edwards Dyed that day about 11 : a Clock, and that they had sealed up his Chamber dore and all other places wherein he hath any concernes. Yours of the 12^th : I recev^d : the 15^th : Instant w^th : the two Grall : Letters from Ballasore of the 4^th : and 6^th : and the Acco^tt : Cash there for the last Month all which I doe now returne you ;

Letters recev^d : with Ballasore Accott : Cash.

If the Chest Gold returned from Ballasore hath never been opened or none of it used there, then there will not need an Invoyce of it from thence, being the same as it came from England and as you Invoyced it to them will serve to enter it againe into your Bookes. I am sorry for the Death of M^r : Richard Edwards and by the letter thence of the 4^th : signed by himselfe fear the Hon^ble : Comp^as : Cash will fall short, for tis not likely as indisposed as he was, that above 8000 : Rup^s : could be wanting and he or they that signed with him not know what become of it, espetially considering that when I was there myselfe with M^r : Mohun examined the Acco^tt : Cash and the Cash in the Chest, and found the Mony in the Chest to be some thing more then there should be by the Ballance of the Acco^tt :, and since that there has been two Months Acco^tts : of Cash duly sent thence, Soe that this I suppose can be noe new Errour as is implyed in the Letter of the 4^th : but M^r : Byam and M^r : Sheppard have done very prudently to clear themselves by writeing that letter whilst M^r : Edwards lived, 'tis my opinion that you write to them to make enquiry how the Mony for the Bill paid at Hugly charged to the Debt of the last Acco^tt : Cash was received and

if the Chest Gold fro : Ballasore was not opened, noe need of an Invoice.

of the want of above 8000 : Rup^s : in ye : Cash at Ballasore.

WEDNESDAY Y^{E} : 26TH :

Present

STREYNSHAM MASTER ESQ^{R} : AGENT
M^{R} : RICHARD MOHUN M^{R} : EDWARD LITTLETON.

Although M^{r} : Littleton is not of the Ordinary Councell to the Agent, yet being of the degree of Senior Marchant, which are of the Extraordinary Councell, it is thought fit to call him into the Councell at this time to take his advice in the affairs of this ffactory whereof he hath had the charge as Chief for above two yeares. Why M^{r} : Littleton called into Councell.

Upon consideration of the many Impediments which y^{e} : Hono^{ble} : Comp^{as} : affairs meet withall, by reason of the long lying of their Silver and Gold before 'tis converted into Currant Mony of the Country, It is thought good to make a firme and lasting Contract with some Responsable Person to take off the whole quantity yearly, soe that as soone as it arives there may be nothing to doe more then to deliver it and to receive the Mony as it comes from the Mint, and Chittermullsaw a Marchant of this place who hath dealt for much of the Hono^{ble} : Comp^{as} : Silver and Gold offering to undertake the whole business was treated with accordingly, and a Contract made with him which being drawne up into writeing is agreed unto and ordered to be ingrossed viz^{t}: Resolved to make a lasting Contract for the Treasure. y^{e} : Agreem^{t} : & contract wth : Chittermullsaw for Honoble : Comp^{as} : Silver and Gold.

We the Agent and Councell for affairs of the Hono^{ble} : English East India Company upon the Coast of Chormondell and in the Bay of Bengale, have Bargained & Agreed with Chittermullsaw of Cassumbazar, and the said Chittermullsaw hath bargained and agreed with the said Agent and Councell for all the Silver and Gold which now is or hereafter shall come into this ffactory of Cassumbazar to be sold for Acco^{tt}. of the said Company at the rates and Prizes following. For Ryalls of Eight Mexico [Civill] and Pillar at two hundred and ten Rup^{s} : 210 Sicca or Rup^{s} : 212 Peet for one hundred Ryalls 100 : weighing 240 Rupees ; For Silver in Ingotts of the same Assay wth : Ryalls (which is agreed to be 6 : Ruttees wast upon a Rupee weight) at the same rate, and those Ingotts that are finer or Courser to be allowed for accordingly. The Mony to be paid in Sicca Rupees from the Mint in a Month after delivery of the Silver, and what is not paid in Sicca Rup^{s} : to be paid in Peet Rup^{s} : at 212 for 210 : Sicca ; and whatsoever the Batta shall rise hereafter (more then one ₱ Cent now agreed upon) the Company are to have the whole benefit thereof. For Gold Pistolls at 13 : Rup^{s} : and two Annas ₱ : Tola, and Gold in Ingotts of the same Assay with Pistolls (which is to be adjusted at the Mint) at the same Rate ; Payment to be made in Gold Moors at 13 : Rup^{s} : ₱ : peece, & what is paid short therein to be paid in Peet Rup^{s} : and whatsoever the Gold Moors shall advance above 13 Rup^{s} : a peece the price of the Gold is to rise accordingly. Dollars at 210 : and 212 : Rups : ₱ Cent. Gold at 13⅛ Rupees ₱ Tola.

The said Silver and Gold to be weighed and delivered in Cassumbazar, and the Risque of the same to Rajamaul and of the Mony from thence to Cassumbazar to be upon the Companys Acco^{tt} : ; at Chittermulls charge and at his Risque whilst in Rajamaul, the Companys Peons to goe and come with it, and two Peons to abide at

Letters received. noe news of ye : Petre Boates.

Yours of the 20^th^ : dispeeded the 22^th^ : we received the 25^th^ : Instant, and had sooner returned answear but that we every hour expected to hear of the Petre boates coming to Rajamaul w^ch^ : to this day we doe not, soe that we are at a loss what to say or doe in this exigence, for we have not yet heard from M^r^ : Charnock that they are dispatcht and gone from Pattana tho in every letter he hath written he hath given hopes of sending them away in a day or two, and he writes soe seldome that now time is slipt away and we know not what to resolve upon, for should you goe about to buy up y^e^ : Petre in Hugly the Marchants would stand off upon termes w^ch^ : tho you should yeild unto to the uttmost of their demands would take up more time then can possibly be spared for the Ships to save their passage home, and we may reasonably hope that the Pattana Petre must be downe in as short time as you can buy up at Hugly; The last Letters from M^r^ : Charnock were dated the 11^th^ : Instant, w^ch^ : came hither the 21^th^ : and were sent forward to you the next day, if we doe not hear from him in a day or two more we shall write you againe, and in the meane time you may be contriving how to compass the buying up all the Petre in Hugly upon a day at once, if we should conclude soe to doe, and give us your opinion herein with all speed.

soe know not what to resolve on.

if we hear not from Mr : Charnock in a day or two. to contrive the buying all the Petre in Hugly.

about takeing an Accott: of Mr : Edwards concernes.

As to the takeing an Acco^tt^ : of M^r^ : Edwards his Concernes at Ballasore it will be a great meanes to justify those there if they can gaine spare time to doe it before some of the Commanders and others belonging to the ships that goe home, and if they cannot take an Acco^tt^ : in writeing of every particular yet before some sufficient wittnesses to open all his Chambers, Clossets, Chests, Boxes and Scretores that they may see what there is, and then lock and Seale them up againe with severall Seales, and take a view of his Papers if from thence they can collect where he hath any thing to satisfy the many demands that we now heare are made upon his Estate.

A Contract made for the Compas : Gold and Silver.

We have lately made a firme Contract w^th^ : Chittermull for all the Companys Gold and Silver that now is or hereafter shall come to be sold in this ffactory at 210 : Sicca, or 212 : Peet Rup^s^ : ℔ 100 : Ryalls Eight and Silver of that Assay and 13⅓ Rup^s^ : ℔ Tola for Pistolls and Gold of that Assay, and as Gold Moores rise the price of Gold to rise, and what y^e^ : Batta shall rise above 1 : ℔ Cent : to be the Companys; But as yet there is noe Mony come in upon it, the first Gold and Silver being delivered this day, soe the Mony cannot be remited to Dacca soe soone as M^r^ : Littleton advised before, the 20000 : Rup^s^ : to Pattana and 15000 : Rup^s^ : to the Duan for M^r^ : Vincent having cleared the Cash.

And notwithstanding the agreement with Chittermullsaw, it will be convenient to try what more can be made of the Treasure in other ffactorys, as at Pattana, and at Maulda when that ffactory is settled, being near yᵉ : Mint at Rajamaul.

Batta on Mony.

There being sometimes difference of one or two ℘ : ϴent between the Mony of Cassumbazar, Hugly and Ballasore care is to be taken in Remiting Mony by exchange or in Spetie, and allsoe in payments in spetie, to allow the Company the Batta that shall arise thereby in every one of yᵉ : Factorys.

Dustoore to pay wages. And the Vackeels, Banians, Mutsuddys, Tagadgeers and Podars shall from this time forward, be allowed noe monthly wages, but they shall be Content with the Dustoore of a quarter of an auna upon a Rupee, w^ch.: the Marchants doe allow them, and they are not to take nor the Marchants to allow any thing more upon paine of being discharged the Imployment both the payer and the Receiver, and y^e: said Dustoore Mony shall be Divided by the Chief and Councell of the Respective ffactorys to the said House Banians, Writers, Podars, Tagadgeers and Vackeels if they doe not agree it amongst themselves, Except at Dacca where there being occasion of great Expence for a Vackeel the Chief Vackeele there shall be allowed what the Chief & Councell of the Bay shall judge convenient, in case the Dustoore Mony on that Investment be not sufficient for his maintenance.

Saltpetre. The Saltpetre provided at Pattana is to be dryed before weighed off from the Marchants and not taken moist w^th: allowance for it, and it is to be sent downe as it comes in by three or four boates laden at a time, and not all kept to the last, w^ch.: hath proved very prejudiciall, the like is to be observed in sending the goods from other ffactorys, that all be not kept to the last, but sent away as soone as they are packed to prevent the ill consequences of a Stop or any loss of time upon the Dispatch of the Ships.

6 : If any of these penaltys will not be reclaimed from these vices, or if any shall be found guilty of Adultery, Fornication, Uncleanness or any such Crime or shall disturb the peace of the ffactory, by quarrelling or fighting and will not be reclaimed, he or they shall be sent to ffort S^t^ : George there to receive condigne punishment.
